1. Select Funds

2. Choose Datapoints To Display

3. Select Time Interval

Retrieve Historical Data? ⦿ Latest Data   ◯ Date Range

| 01/31/2008 | ▼ |
| 01/31/2009 | ▼ |

4. Run Query

- To open a pane, click on its header bar.

- Select Funds

   Choose criteria to select the funds you are interested
   in by opening the "Select Funds" pane. Click
   on datapoints to the right to select funds based
   on the value of the datapoint. (Most frequently used
   datapoints are open at first -- more are available down
   below.)

- Choose Datapoints To Display

   Open the 2nd pane to select what fund data you
   want to see. Again, clicking on a datapoint with the pane open
   adds it to the list.

- Select Time Interval

   By default, Wisdom retrieves the latest data available.
   If you would like to view historical information, open this
   tab, to select the date range you would like to view.
